**HOW THE NAME OF “DYNASTIC” *BASARAB* AND WHEN IT WAS
ADOPTED BY MATEI *BASARAB***

Abstract

A critical analysis of the historical origins brings us to the conclusion that the old dynasty from Wallahia, without a family name, united with the one of the Basarab's (Craiovești), was accomplished during the reign of Matei Basarab.

The conclusions of the study can be discovered in today's historiography when we can generally name *Basarabi* as the blood inheritors till Alexandru Coconul (+1632) and Mihai Pătrașcu (+1655) from the period 1324-1632/1655 and Basarabi-Craiovești, beginning with this one, then Constantin Șerban, Șerban Cantacuzino, Constantin Brancoveanu and Ștefan Cantacuzino, those reigns are present in the period 1601-1716, the same period where we can place the reign of Matei Basarab from the same family of the Craiovești.

MATEI BASARAB UND SEIN BEITRAG ZUR UNTERSTÜTZUNG DER SÜDOSTEUROPÄISCHEN ORTHODOXIE

Zusammenfassung

Matei Basarab, dessen Mutter aus der Familie Craiovescu stammte, einer ausgewählten und vor Gott voller Ehrfurcht Familie hat in seinen 22 Jahren fürsterlicher Herrschaft eine kulturelle und schöpferische Tätigkeit ohne Beispiel in der Geschichte unseres Landes und unserer Kirche unternommen.

Als Unterstützer und Mäzen der Künste ist er gleichzeitig in der Geschichte besonders als Gründer von Klöstern und Kirchen in unserem Lande und außer seinen Grenzen, als Wohltuender der Kirche Christi bekannt.

Außer der Klöster und der Kirchen, die er in der Walachei (30) aufgebaut hat, ist Matei Basarab Gründer zahlreicher Gotteshäuser außer der Grenzen des Landes (Berg Athos, Bulgarien, Serbien), die er mit großen Summen von Geldern, mit heiligen Objekten und Büchern beschenkt hat.

Indem er das Beispiel seines Urahnes Neagoe Basarab folgte, hat er sich als großer Gründer und Wohltuender des Berg Athos geäußert. Die historischen Urkunden bestätigen die Tatsache, daß der Herrscher aus der Familie Craiovescu den 11 aus den 20 Athosklöstern geholfen hat.

Seiner Großzügigkeit haben sich mehrere Klöster und Kirchen aus dem Epir, Bulgarien und Serbien erfreut.

Anläßlich des Gedächtnisses von 350 Jahren von seinem Tode werden seine ewigen und christlichen Taten von der Kirche und dem ganzen orthodoxen Volke, aus dem er abstammt, gelobt und verehrt.

**THE SURVIVAL OF ROMAN LAW NORMS REGARDING INHERITANCE
IN MATEI BASARAB'S GREAT PRAVILA (1652)**

Abstract

After presenting the premises of the remanance of Roman Law, seen through the knowlwdge of Latin and the existence of a juridical academic system during the reign of Matei Basarab, the first part of the article focuses on establishing the quasi identity of the *ab intestat* heir's class, by presenting, in formal comparison, the dispositions included in the maintained *Corpus iuris civilis* and in the *Îndreptarea Legii Code*, the most important legislative work of the Romanian Medieval Age. In the second part of the article, the author develops arguments supporting the idea that the surviving husband has maintained his quality of legal heir in the Roman Law, even after the reforms applied by Emperor Justinian through the novelles 118 and 127.

Subsequently, there are presented the norms of Roman Law included in Matei Basarab's Code regarding the last will, the available cote, the relation among liberality and the reasons that leded to disinheritance.

PRAVILA DE LA GOVORA

ȘTEFAN RESCEANU

THE PRAVILA OF GOVORA

Abstract

The first law codes were elaborated during the reign of Matei Basarab (1632-1654), by translating some nomocanons from Slavonic and Greek.

The *Pravila of Govora* also known as *Pravila Mica* / the *Little Pravila* the first printed work in Romanian, appeared with contribution of the enlightened hierarch Teofil, of the nobleman-scholar Udriste Nasturel, the one who composed the verses from the country's armorial bearing, of the prior Meletie the Macedonian and of the hermit Stefan of Ohridra. The translation of the *Pravila* from Slavonic is the work of the hieromonarch Mihail Moxa or Moxalie from the monastery Bistrita (Valcea).

Following the idea of promoting the Romanian language on both sides of the Carpathians, the *Pravila of Govora* appeared in two editions: one for Wallahia, and one for Transylvania, the later under the name of the metropolitan bishop Ghenadie.

Considered by some researchers as being a Romanian work, *Pravila of Govora* is a nomocanon, a compilation of civil and ecclesiastical laws, with Byzantine origin. Varied in its content, the *Pravila* has many features of disciplinary ecclesiastical code. Its purpose is that of "lawguide" for the clergy use and it specifies the place and the role of the Church in the feudal society.

Monument of the Romanian law system, in general and of the canonic law, in particular, the *Pravila of Govora* also remains an instructive and educative book for the Romanians from Wallahia and Transylvania.

DORIN TEODORESCU

MATEI BASARAB'S TIME BOOKS

Abstract

Between 1635 and 1652, in several printing presses – Câmpu-Lung, Govora, Târgoviște, Dealu – established and sought after by the voivode Matei Basarab and his wife Elena, there were printed church mass books in slavonic and romanian, as well as the famous legislative volumes „Pravila” (The small Pravila at Govora dated 1640), and also „Indreptarea Legii” dated 1652 (The Revising of the Law).

These have been extremely important milestones for the romanian civilization.

CĂRTURARUL MOXA - CONTEMPORANUL LUI MATEI BASARAB

MARIUS CORNEL VASILE

MIHAIL MOXA, CONTEMPORAN WITH MATEI BASARAB

Abstract

The Honograf of Moxa has been the first work which goes up to the post-coresian period, with it we enter in the roumanian period, in the time of glory of the roumanian books above the slavone one. Moxa Honograf it's not a work of fake, a copy written somewhere in a hidden conner of the country. Is not even an work started by the one, it is the first universal history written in roumanian, work of translation and compilation done at the command and with the bless of a bishop. By this first historiographichal work written in roumanian, contemporan with Matei Basarab, Moxa, confers new valence to the literary relation and cultural bizantin-slavon-roumanian and in the same time offer a new kind of phisionomy to the old roumanian hystoriography in the literary pasaje of the South-East european.

By traducing *Pravila* printed at Govora in 1640, Moxa confirm his will the encourage the writing in the roumanian language, the national one, and by this Moxa should be considered an promotor of the national concency.

MONUMENTS FROM MATEI BASARAB'S EPOCH, AND THE GORJ COUNTY

Abstract

The study presents, in detail, the initiatives of Wallahia's voevod, of founding ecclesiastical laic monuments, bearing stylistic features and distinct characteristics, that can be found in Gorj county. Among these, first of all, one can mention the chapel of Tismana Monastery, built from the order of the voevod Matei Basarab, the Crasna hermitage, the Polovragi monastery and the Tantareni monastery.

The voevod's example, followed by some of his noble men from Gorj, proves that Matei Basarab's reign represented a period of outstanding flourishing of the Romanian architecture.

MATEI BASARAB - RESPONSIBILITY AND DESTINY

Abstract

The settlement of Brâncoveni can be considered a Romanian Pantheon, the study of the historic roots confirming this affirmation. Settled at the crossroad of the internal and international roads, the habitat facilitated the development of the human community starting with the daco-roman time and arising in the period of the Brâncoveni dynasty especially during Neagoe Basarab.

The Buzești Family and Mihai Viteazul knowing the significance of this strategic settlement and carrying on the tradition exercised directly their authority on the territory of the River Olt Valley.

LES TRAITS PORTRAITISTES DE MATEI BASARAB DANS LES ÉCRITURE DE CHRONIQUEURS ET VOYAGEURS ÉTRANGERS

Résumé

Dans cet article je me propose à présenter le manière ou les chroniqueurs et les voyageurs étrangers décrivent l' un de princes régnant de Valachie: Matei Basarab. En Principautés Roumaines le comportement princier était influé par l'image politique byzantine, par les termes de contrat féodal et par la croyance dans la fortune de prince. Conformément au contrat féodal le prince régnant faut défendre sa patrie, rendre justice et faire grâce aux ses sujets. Le prince régnant de Valachie Matei Basarab faut répondre de tels nécessités. Les chroniqueurs et les voyageurs étrangers ont de mots digne de louange pour ce prince. Ils disent que le prince régnant a été un homme vigoureux, brave, bon soldat et diplomate, "un autre Michel le Brave infier, doux et droit, actif, invaincu et courageux", "il avait un très bon nomme étant craint de toute monde".
